REST APIs, WordPress, Git

Personal Projects

- **UrbanElegance E-commerce Web App** (01/2024 - 02/2024)
Discover UrbanElegance, an innovative e-commerce web app where fashion meets technology. Browse a curated collection via APIs, adding items to your cart with stylish animations. Enjoy hassle-free cart management and personalized recommendations tailored to your style. Elevate your shopping experience with UrbanElegance's captivating design and modern functionality.

- **Harmony Hub** (09/2023 - 03/2024)

"Harmony Hub" enhances community service by recording and verifying volunteer activities for academic institutions and NGOs. It tracks service hours, issues blockchain-secured certificates, and boosts NGO visibility, ensuring reliable attendance and efficient student engagement management.

- **Legal Ease** (03/2024 - 06/2024)

Legal Ease is a web-based application designed to provide easy access to legal information and services in Pakistan. It includes an AI-driven search component, lawyer referral service, and live chat. The project aims to enhance legal accessibility by matching users with specialized lawyers and providing accurate legal advice, thus making legal assistance more accessible and efficient.

Certificates

- **React.js Beginner to Advanced** (04/2024 - 04/2024)
